APPLICATION

Spark Arresting series is a low performance reactive silencer recommended for those conditions where the ambient noise levels in the environment is moderate. Used particularly where stringent noise criterion is demanded. Offers excellent broadband attenuation. For use with two and four cycle engines.

PERFORMANCE

An attenuation of up to 20dBA is attained from the outlet of CE20SA / CE20SAS range of silencers under open-field conditions.

FEATURES

- Mild steel body with JIS 5K flanges
- Coated with heat-resistant aluminum paint (Up to 600°C)
- Can be mounted either vertically or horizontally without affecting performance
- Modifications and other sizes available upon request
